CONVICTING SILENCE.

A silence like the stillness of a graveyard hangs over the Billmeyer scandal since the finding of the Meleed jury. From the Calgary Herald, which negated the slander, to the obscurest Tory rag that raised its head to hiss Mackenzie and spit venom at the Department of the Interior, comes no sound. With the full facts of the case before the public these fabrications are dumb. That they are dumb is proof that they were fabrications. Were they only mistaken they would have apologized long ago.

Then the Winnipeg Telegram, in a moment of untimely enterprise, decided to investigate matters for itself, without awaiting the slower processes of the law. It did so, and published the result. Broadly speaking, the purpose of this was that Mr. Woods' wholesale gambling device was the only proper earthly use of his inventive and prosecutive penitentiary. At this Mr. Woods' became exceedingly wroth, determined to find balm for his damaged reputation in the courts, and entered action for criminal libel against the Telegram.

Thus, while the Robin Government and Woods by the collar for running a gambling concern, Woods in turn, with his grip on the Government's third newspaper supporter for libeling him, if the Government prosecuted Woods, Woods would undoubtedly prosecute the Telegram. And while there was every appearance of a clear case against Woods, there was also every likelihood of the Telegram getting scored for "hitting in" when the case was run judicially.

This came the "coup" in the Robin Government dropped the case against Woods, and Woods let go his grip on the Telegram. In its quiet guise, the Telegram announced next day that the only price Woods paid for the compromise was "full payment of all the claims of his creditors throughout the Province." Very fittingly Attorney-General Campbell left the same day on an extended trip to Europe while Mr. Woods journeyed southward across the border. For the name of Canadian justice it is desirable that their sojourn abroad be of equal duration.

The doctrine that restitution stops criminal action is a new one in Canada, and one fraught with immense possibilities. Under this rule, the thief goes free if he returns the stolen goods; the defaulter is safe if he delivers up the funds; the retainer is free from the terrors of the law if he pays for the house he has burned; and presumably a murderer would be legally absolved if he settled the financial demands of his victim's relatives. This is the real meaning of the source which the Robin Government took in order to free the Telegram from the tale.

It still worse the offender did even make full "restitution." He only required to provide for his creditors "in the Province of Manitoba." Assuming that the "victim" means "victim," he repays only those who reside in Manitoba. The unfortunately ambitious gentleman who did business with his concern in Regina, in Calgary, in Edmonton and elsewhere, were unprovided for when the Attorney-General of Manitoba compounded this felony. The cash he took from them is still in the pocket of Mr. Woods—or did he divide it with some one?

RETRECHMENT, BUT WITH FORESIGHT.

The Bulletin agrees that the policy of civil retrenchment is advisable at the present time, and has no intention of unreasonably criticizing the city government in trying to curtail the season's programme. But surely this could have been done with a little more foresight.

Weeks ago the sidewalks on both sides of Jasper were torn up from Jasper avenue to Sutherland street. They are set up and not one block of cement has been laid on the avenue. The residents in the meantime have the choice of using other streets or struggling along the gravel boulders for the prospective concrete.

conveniently provided here and there with protruding "cut offs." Two weeks ago a gang of men with teams were turned loose on Nampayo, preparing the street for paving. A foot or more earth was removed from the surface, some work was done re-excavating and re-filling the water and sewer trenches, and then work was suspended. In consequence the street is navigable with vehicles only at the hazard of life and limb. The half-filled trenches stretch for a block in a series of chasms, yawning for the unwary, and only indifferently guarded by barricades. Pish holes have been worn into the soft surface of the roadway and the man-holes of the sewer mains project about a foot and a half above the level.

Retrenchment is desirable, but it is also foresight in planning the retrenchment. If the Fraser avenue walks are to be constructed this year why is work not proceeding? If not why were the old walks torn up? And why was the plank walk not left on one side of the street in any event until the concrete was finished on the other side? It is anticipated that Nampayo is not to be paved this year. Surely this should have been definitely decided before the old roadway was destroyed. And now that it has been destroyed, the street should be fairly be put in some more possible condition for use during the year.

THE WOODS-CAMPBELL SAW-OFF.

It now transpires that there is nothing common to the victims of Woods. The Winnipeg lock-out men, except to those of them who live in the Province of Manitoba. The hundreds scattered through Saskatchewan and Alberta have no consolation but that they have acquired experience and paid for it.

This fact was discovered a few days ago by two Regina gentlemen. They had had dealings with Woods and wanted their money back. They placed their case in the hands of a lawyer, who made inquiries and was informed by the council for Woods' interests that "they had no money, because they pay claims outside the Province of Manitoba."

This is the latest development in one of the vilest pervasions of justice that has ever disgraced this fair Dominion, the credit for which belongs to the Government of Manitoba, but the consequences of which are being inflicted on the people of three provinces.

A year or so ago Woods started the Canadian Block and Grain Company with headquarters in Winnipeg, and branches in all the important centres of the West. Edmonton included. He advertised freely, procured a claim to procure "direct wires" from the grain markets in St. Paul and Minneapolis, and began to do business on an extensive scale. It was soon observed that the movement of coin in the vicinity of the company was always in one direction—from the "patron" to the proprietor and the settled conviction soon became that the Canadian Block and Grain Company was only the place out-reaching name for a flourishing thoroughbred bucket-shop of the last improved species.

Mr. Woods soon made his appearance in the Winnipeg police court in the capacity of defendant. The rivalries of evidence began to pour in from all sides, and the Manitoba government was forced to take up the case. Attorney-General Campbell therefore instituted criminal proceedings against him. His premises were raided and evidence of the most damning nature was procured. It took for very much like an extended visit for Woods to the place of comestual retirement.

ON THE SIDE.

Thursday's windstorm blew away all the buggies belonging to ladies attending a Ladies' Aid meeting at the St. Schalkenbach. Were they lucky suggest?

Forty-eight dead, 2,226 injured, were Saturday's returns from the celebration of the Fourth in the United States. This looks much like war, and a competent U. S. authority has declared that "war is hell."

St. Montague Allan declares that Canadian banks are squandering too much money in imposing buildings. He theory probably is that the banks might better lend the money, and let them in the building—and pay the interest.

A surplus of \$18,000,000 over, current expenditures and \$2,000,000 over all expenditures was Canada's record for the past year. This is not too bad.

particularly when it is remembered we spent \$14,000,000 on capital account, or in other words, on permanent improvements.

What to Drink

A most important question. What to drink concerns every human being, especially where conditions of local water supply are not good. What you drink has as much influence on your health as what you eat. Residents of Edmonton may now have beverages that taste good, are good and which can be relied upon for purity. We have established in Edmonton the first water distilling plant west of Lake Superior, and from these "stills" comes every drop of water used in making our beverages. These beverages—"Hygeia Best"—are absolutely free from mineral or bacteriological contamination and contain

LETHBRIDGE WINS
FINAL AT HAT

Miners Make it Two Out of
Three By Winning Sat-
urday 9-3

Lethbridge, July 6.—By taking tonight's game by a score of 9-3 Lethbridge not only got revenge for last night's defeat, but took the rubber of the series with the miners. Fourth inning, a splendid game after the first innings. The Miners got four runs, most of them for extra bases. After the second innings the game was fast. Score:—R.H.E. CUP RACE NEXT
SEASON POSSIBLE

Challenge Expected From Sir
Thomas Lipton Under
New Rules

New York, July 7.—There is some prospect for another America's Cup race next season with Sir Thomas Lipton again challenger, according to reports in yachting circles. Sir Thomas was in that country last year he expressed a desire for another try for the trophy, but only on condition that the races be sailed under the new measurement rule, which practically precludes sending a "racing machine" type of boat to the line. He was told that if he would defer his challenge a year, in order that the new rule could receive a thorough test, the New York Yacht club would be in a position to pursue the matter. It is now said that the yachting season, young as it is, has just begun to prove the contention that yachts can be constructed with great speed without the loss of stowage and safety in heavy weather, and that the performance of such boats as the schooner Queen, sloop Effort, and other boats constructed under the new measurement rule are rather confident that such a change will be forthcoming.

THE WEEK'S ATTRACTIONS.

Little Excitement in Horse Racing—Auto Endurance Run.

New York, July 7.—Following a period of much activity in all branches of athletics, the present week promises little in the way of sports. The endurance run for the Glendon auto trophy, the competition for the American amateur road championship, preliminary play for the Davis tennis trophy in England, and the annual number of fish stakes in horse racing, covers the list of events of national interest in sports during the next seven days. The qualifying championship of the United States will begin on Tuesday over the Lincoln Field club at Cleveland, and play will continue throughout the week.

The fourth annual American Auto association tour for the Glendon cup will start from Cleveland on Wednesday and finish in New York city, July 22. More than seventy champions will engage in the great endurance run, the route of which will take them west to Chicago and back east through Indiana.

FANS HAVE HOLIDAYS.

The Edmonton baseball team left yesterday afternoon for the south and will not be seen in action on the home grounds for a clear two days, not being scheduled to perform here until July 22.

All things considered, the Legislature should have given Sir Thomas that a challenge under the new rule would be accepted and yachting during the recent home series. The never had the regular team at work under favorable conditions during the stay, and no matter how effectively the team might have been trained, there isn't much chance of winning a majority of even home games with the new rule. The outfit and the players playing the outfield and the center fielder Adams, who has been kept here running affairs and being able to get in shape. He is now leaving, Murray White in instead that there will be a couple of changes at least in the players.

positions. Captain Grimes will be brought in from left and played at short. Harts will be moved over to third and Baker will go out in the left garden to get acquainted with Grimes should be in the inner circle, however, to handle the new bats. There is no reason to suppose that the infield at present is made up of players of only short acquaintance with genuine professional baseball and the presence of an old-timer like Grimes will undoubtedly have the effect of putting them together rapidly in case of a fall down in close play. Grimes has held the short field down previous to coming to Edmonton and will find himself right at home there with a few days' experience at the post. The experience should have been more sober, but the stilling of the mind in the league, and what the new pitcher might be, the management are dicker in it are landed the Legislature should make it two out of three in every game in the next home series.

SATURDAY'S GAME CANCELLED

The showers which fell at intervals all day Saturday prevented the final game of the Calgary-Edmonton series being played here on Saturday night. It was a great disappointment to the fans, who were confident of the Legislature coming out on top in the final clash with the Chinks. The game was down to do the leaving in Edmonton, and he has always been a puzzle to the southerners, while King would have been on the make or Calgary, and the locals have never been able to get him out of the house.

Edmonton stacks up against Calgary the first three days of the week at Calgary, and then moves on to Lethbridge for the next three days. From there they go to Medicine Hat for three games with the champions, and then back to Calgary for matches on July 15, 16 and 17. The Legislature will be minus the star pitcher, who will be needed for Detroit on Saturday, and Voge will be compelled to hold down the center position until another man is secured. Hazzard is needed on the pitching staff and will not be in

the outfield unless absolutely needed. Deads are on now for a new talent and outfielder, and it is more than likely the fans will have a couple of new players to get acquainted with before the Legislature returns.

LACROSSE.

Montreal, July 6.—In one of the latest exhibitions of lacrosse ever seen in Montreal the Nationals on Saturday triumphed over the Montreal twelve in a game which was won by a score of 5 to 4. The Frenchmen had slightly the best of it in the game, but in all other departments the Nationals were very even. The victory of the Nationals ends their record in the top in the league race and the Nationals will find them a hard proposition to keep out of first place from now on.

CAPITALS MUST WIN.

To have a chance for the provincial lacrosse championship the Edmonton team have got to win all future games, and the boys will commence their victorious march to the top notch honors by taking a fall out of the Strathcona twelve on Wednesday night at Strathcona.

The Caps were soundly trounced on Tuesday by Calgary, but no visiting team will be able to pull off the trick again on the Edmonton grounds this season. The Caps went into the contest confident of winning, which was somewhat natural after having "kicked Calgary" up 13 light on the previous day. Besides this, they were not in shape, as practices had been cut out owing to no ground being available. If the weather stays clear, the Caps will see to it that the boys are in condition, and with the players all going right Strathcona has no chance to come out on top. The trimming Calgary handed them has weakened them up in the weak points, and a starting reversal of form may be looked for on Wednesday. The Caps will only hold out the Strathcona home the Caps, scoring and should be well on their way to run up a score large enough to win out.

Playing away from home makes no difference to the Edmonton twelve, and with so much depending on

Wednesday's game the locals will have no time for the stars to have the long end of the tollies to Edmonton's credit.

B.C. LACROSSEISTS BORE.

Orillia, July 8.—Major Curran, of Orillia, who started for Australia with the Millers, got home yesterday, stress of business having caused him to turn back at Vancouver. "Major" says they are very sore in their players over the team, and "went out to bring the poor travel-worn tourists to the limit." Nor is he sure of the team's future. They directed the tourists to an inferior hotel, and never even called around to say "how do" before or after the game. He says the B.C. champions are a lousy bunch, averaging 30 pounds per man more than the tourists, but that they were no better stick swingers than the latter; that, in fact, the score represents the condition rather than the merits of the teams.

SPORTS AT VERMILION.

Vermilion, July 8.—The L.O.O.F. have completed all arrangements for the big day of sports on the Vermilion on July 12. The programme is complete in every detail and the day is full of attractions. A. L. Vandrick will be pleased to supply lists of the sports on application. Besides horse racing, running events, jumping and polo, there will be a number of athletic events. A baseball match Vermilion vs. Campbell Lake right after dinner and a football game in the evening. Vermilion vs. Mayville. The services of the Vermilion Officers' Band have been secured for the day. Refreshments will be served on the grounds.

WHAT WE SAY WE DO.

HARRIMAN HEAD OF BOYS' CLUB

In New York.—More Interested
In It Than In Railroad
Enterprises

New York, July 7.—The largest club in the world and one of the most unique of all social organizations occupies a five-story, fireproof, white building on Lombard square, at the corner of Tenth avenue and 42d St., New York City, which is the centre of fashionable life here. It is occupied by nearly 2000 young men of mechanics and laborers of the better class. It is called "The Boys' Club."

It is thirty-one years old, and has a membership of ten thousand more or less. The youngest members being seven years old and the oldest forty-three. The average age of the members is about sixteen years. The older class or "the seniors" as they are called are veteran members who have been connected with the club from the earliest days and still go there occasionally with the deep interest.

Object of the Club.
The origin and purpose of the club, as described by D. H. Harriman, the assistant superintendent, is to provide the boys of this part of New York with healthy recreation of a character that will make them proud of the club to the teachers and parents and its origin was due to a few young men who hired a room thirty-one years ago for them to play in. Since then its development has been gradual but sure. We do not attempt any religious or moral work. The club is exclusively for recreation. The building cost about \$200,000, and was built by D. H. Harriman and presented to the corporation with the land upon which it stands. Harriman takes an active interest in the club and the entertainments given by the boys and has frequently helped in very generous ways in financial difficulties.

Harriman President.
Harriman is the president of the club, the vice-presidents are Philip H. Hays, and William W. Shady, the treasurer is Eliphaz N. Peter, and the secretary is S. H. Brooks, Jr. It is well known as the Stock Exchange. The superintendent is an Englishman, Francis J. Taylor, a graduate of Cambridge University, who has worked thoroughly equipped for some years after several years of experience among the boys of the East of London. Taylor is a genuine genius of great versatility. He is an organizer, train and conductor of a company, an orchestra and a band, he is a minister athlete and instructor of physical culture; he is an expert photographer, a carpenter, builder and gardener; and as a father of boys he is a wonder. The president of this club is also president of the Southern Pacific and the United States Railways, and has acquired considerable notoriety in connection with certain proceedings of the Interstate Commerce Commission and the Department of Justice at Washington.

Magnate's Fad.
On all street they will tell you that it is "Harriman's fad," and if you ask him, as I did a few days ago, he will interest him most of all the boys he is engaged in, he will name "The Boys' Club."
Harriman was a boy himself once, but never allowed to enjoy the pleasures of the average boy. He had to work for a living. He went into a book office as a messenger when he was fourteen years old, and has been working from twelve to eighteen hours a day ever since. He never had time to play; he never had any amusements.
He is probably known as much as any boy who ever lived about the method of stock speculation; but while the boys were at play he had to work to the world he has never forgotten that devotion. It is the keenest regret of his life and that accounts for the greatest he takes in boys.

Hicks' Forecast

St. Louis, July 7.—A noisy atmospheric celebration of the glorious Fourth was what Rep. J. E. Hicks prophesied. Mr. Hicks predicted that the second to the fourth thunderstorms would prevail, and that the rainfall at times was likely to be of torrential character.

In his weather prediction for July Mr. Hicks says that the first storm period, which he calls reactionary, would enter on the second and third, adding that "thunderstorms" would enter on the second and to the fourth. He estimated that cloudbursts may be expected and of varied watchfulness.

See Blustering Storms.
Mr. Hicks says, "will be critical on the eighth. A strong warm wave will cross the country from the Gulf to the 11th, the barometer will fall to low readings and blustering thunder storms will sweep across it; we will have a continuation on and through the 10th to 11th. Look for only scattering rains with possible cloudbursts in the middle of the week." Mr. Hicks' barometer and thermometer are about the tenth.

The third storm period, Mr. Hicks says, will be central, he says, on the 13th, 14th and 15th. Storms will be near the earth (say) for fifteen years past, and sometime and volcanic; the storms will be seen natural for a period of several days, entering on and about the 10th, the date of a solar eclipse. Thundering conditions and probably heavy storms will continue about the 10th to 10th may be prolonged through the 10th and 11th.

"Water-pout" Warnings.
The fourth storm period, he says, will cover the 16th to the 22nd, but generally the rainfall will be scattering and light, but phenomenal "water-pouts" may be looked for. The continuing storm days will be on the 20th to 22nd, followed by a change to cooler.

The fifth storm period will be central from the 24th to the 28th, the sun falling on the 24th, he says, "many storms and marked volcanic disturbances will be heard from many parts of the earth, so that a maximum of such phenomena may be noted. The temperature will fall after these storms."

The sixth storm period, according to Mr. Hicks, falls within a Mercury period, and will be central on the 31st, extending from the 28th, two days into August. Much warmer weather, with gathering thunder storms will begin in the West by the 28th, and for the following days will pass eastward across the continent.

LOCALS.

Rev. Mr. McDonald, of Lamont, Avenue Presbyterian church on Sunday evening.

Mrs. John Dill, of 725 Third street, died yesterday and will be buried tomorrow afternoon. The funeral leaving the family residence at 2:30 p.m.

Mr. and Mrs. Joe Conney are leaving today for Cooking Lake, where Mr. Conney intends spending the summer. Mr. Conney will return after a two-week holiday.

A meeting of the Bruce Old Boys' Association will be held in the local club rooms, to settle up the accounts of the Re-Union, on Tuesday evening. A full attendance is requested.

McDonald Methodist church will open a branch Sunday school at the south street on Saturday afternoon next. Mr. Magrath will take charge of the opening ceremonies.

The new sewer being installed by Dwyer & Co. and McDonald & Hart from their properties in the northwest end of the city to the river, will be used only by these properties. The sewer is being constructed at the expense of these two companies.

There will be a meeting of the recreation club in All Saints' school room on Tuesday evening at 8:30 to discuss several matters of business and all members are particularly requested to be present. New members will be gladly welcomed.

The movement of the Lord's Supper will be dispensed in Queen's Ave. Presbyterian church on Sunday morning next. The preparatory service will be held on Friday evening at 7 o'clock at which Rev. Mr. McDonald, of Stratcliffe, will preach.

On account of the Winnipeg Exhibition July 12th to 20th, the Canadian Pacific Railway Company announces a special rate of \$2.50 for one-way trip. Tickets on sale July 12th to July 15th, inclusive, good to return until July 20th.

At the police court on Saturday night two men, named James and Pierce, were fined for assault. The former for striking a man named Smith, and the latter for assaulting his wife. They were bound over to the police for one year.

There will be a meeting of the executives of the Sunday school, Young Ladies' club, Young Men's club and the Y. P. S. C. E. of Queen's Avenue Presbyterian church tonight at the church at 8:30 for the purpose of discussing the summer's work in connection with the church.

The new store of the Somerville Hardware Co. on First street, is now complete and the firm are moving into it this week from their temporary quarters in the premises adjoining. The new store equals anything west for size and the fixtures are of the very latest design.

A special meeting of the Knights of Columbus is called for Wednesday night at 8:30 in the separate school room on Third street. The Knights propose purchasing a club house for purposes of the society, and it is expected something definite will be decided upon in this matter at Wednesday's meeting.

Before Inspector Worsley at the Mounted Police Barracks this morning, Ross Gillett, for keeping a disorderly house north of the city limits, was fined \$200. The case was brought to the attention of the authorities through the report of a man who claimed he had been robbed of \$100.

Paul Lepp, a driver for the Northern Hardware Co., who was injured in the runaway accident on the Ross road Thursday last, is not as seriously injured as at first reported and will be able to resume work at his next week. At first it was thought he was killed, but the damage to his leg was by his striking up and some bruises on the lower extremities.

Edmonton Orangemen have about completed arrangements for the opening of their new hall on Third street Wednesday night. The lodge will celebrate the glorious twelfth at Wednesday night, but it has not been decided whether Edmonton will go as a separate parade. Several new members have been initiated lately and the lodge will make a good showing at the annual demonstration.

BEAUTIFUL HYMN SERVICE.

The service at the Grace Methodist church last night was one of particular beauty, being composed entirely of fine old hymns sung with excellent effect by the choir. In a couple of instances where the hymns were sung by the congregation the rendering was inspirational in its splendid volume of tone and devotional character.

Local ladies' chorus and the male quartet sang various hymns with their usual excellence.

Miss Bryce, who assisted in "As Pants to Hatt," from Spauld's "Cenci," gave a highly pleasing rendering of the old favorite. Miss Brown's solo was also particularly good.

A very large congregation was in attendance, enjoying the service, which illustrated perfectly the power and charm of the old hymns which still rendered.

Rev. Mr. Philip, of Camrose, preached.

THE CITY STREET RAILWAY.

Speaking of the city street railway project this morning Commissioner of Public Works said that it could be completed and in running order by September, 1928. The total cost of the six miles provided for a \$400,000. The work being completed this year is 3,500 feet double track on Jasper, and leaves an equal distance still to be done next summer and thereafter. It is expected that this year's work on Jasper will be finished in two months' time.
